Vinquiry Calibration Days

In order to ensure accurate analysis, it is essential that all laboratory instruments are working properly. To assist you in this endeavor, Vinquiry is now offering a calibration service for laboratory equipment and instruments.

Pipet Service Days - April 11th and May 23rd

Send in your automatic pipettors, including the Eppendorf brand, for service on either April 11th or May 23rd. Various service levels are available and custom services can be created to fit the needs of your individual pipet. Verification and validation at multiple volumes, adjustment of the instrument into tolerance, and leak checks are options of the basic service levels. Both single channel and multi-channel pipets are accepted.

Lab Equipment & Instruments

Special arrangements may be made for maintenance and calibration of pH meters, ebulliometers, refractometers, spectrophotometers, and balances. Instrument repair is also available. Please call 707-838-6312 to schedule your equipment maintenance or repair.

Please call 707-838-6312 or click [Pipet Calibration Work Order Form](#) for a copy of the work order form and pricing. All instruments must be sent with a work order form and separate forms are required for each instrument.
