

pH/ISE Electrodes

FUTURA Electrode Cables

These electrode cables connect FUTURA electrodes to most pH meters. Cable Extensions are available to extend the length of standard cables with BNC connector.

Note:

When ordering replacement electrodes, the existing FUTURA cable might be used. There is no need to reorder FUTURA electrode cables.

Part Number	Cable Length	Connector	Electrode Type	pH Meters
511332	1 m (3.3 ft.)	BNC	Combination or Indicating	Φ Series and others
511326	1 m (3.3 ft.)	BNC waterproof	Combination or Indicating	Φ Series and others
511333	2 m (6.6 ft.)	BNC	Combination or Indicating	Φ Series and others
511327	2 m (6.6 ft.)	BNC waterproof	Combination or Indicating	Φ Series and others
511334	6 m (19.7 ft.)	BNC	Combination or Indicating	Φ Series and others
598976	1 m (3.3 ft.)	US Standard & Pin	Combination only	Older Beckman meters and others
598979	1 m (3.3 ft.)	US Standard	Indicating only	Older Beckman meters and others
598982	1 m (3.3 ft.)	Pin	Reference only	All Beckman meters and most others

BNC Cable Extensions

Part Number	Cable Length
511332	2 m (6.6 ft.)
511333	5 m (16.4 ft.)
