

Enological Round Table Varietal Winemaking for the Upcoming Harvest

Vinquiry Enartis is hosting complimentary Enological Round Tables led by John Katchmer, Enartis Vinquiry's Enologist. The main topic of discussion will be the use of Enartis products to achieve stylistic goals in winemaking for individual varietals. This round table will aid in selecting the appropriate Enartis products that will work synergistically throughout the fermentation process to get the most out of your wine. A harvest strategy will be designed according to grape conditions and the desired style. Instruction on integrating the different stages of winemaking, including grape quality protection, expression of varietal character and the preservation of the aromatic quality will also be discussed.
